The adidas Yeezy Boost adidas superstar womens 350 V2 Clay will be the next iteration of the silhouette and one of its newest colorways in 2019. The sports an earthy color palette with light brown covering its Primeknit construction. The highlight translucent stripe across its sides reveals clay-colored underlays, while more clay is seen on the heel pulls, and semi-translucent ridged midsole to complete the design.

This warm weather inspired colorway of the Yeezy Boost 350 V2 is covered in its earthy hue of tan/pink across its Primeknit upper. The style also features the updated midfoot yeezy adidas stripe in a translucent theme that reveals a pattern underneath. Finally, a brighter clay hue is also used for the heel tabs and semi-translucent ridged outsole to complete the design. stan smith adidas This Yeezy will release exclusively in North America and Latin America Shop adidas Yeezy Boost 350 V2 Clay

Update (4/20/17) : adidas Originals officially announces that the Yeezy Boost 350 V2 Cream White will release in adult and infant sizes on April 29, 2017. Update (2/24/17) : It is being strongly rumored by reputable source "Yeezy Mafia" that the all-white/cream white colorway of the adidas samba adidas Yeezy Boost 350 V2 will be releasing some time in April of 2017 in both adult and infant sizing.

Sporting an all-white primeknit construction, the component still bears the distinctive stripe detailing, in addition to the signature "SPLY-350", although, it's camouflaged due to its white-out aesthetic. Matching heel pull tabs, laces and a full-length boost sole unit caps off the heavenly profile altogether. Will restock on September 21st 2018. Following the release of the adidas Yeezy Boost 350 v2 White , a adidas running shoes dark green version of the sneaker is expected to drop this summer 2017.

The theme of the sneaker is highlighted with its glowing element evident all over when exposed to complete darkness. Finally, the design is topped off with distinct translucent side stripes that reveal a unique pattern underneath. Official images of the adidas Yeezy Boost 350 V2 Hyperspace have surfaced and it's also revealed that the shoe will an exclusive regional drop in Asia and Australia only. The shoe features a light blue tinted hue across its Primeknit upper, with the
